COMPONENTS

RUNNING STITCH

1. Prepare appropriate thread length by measuring seam 5 times. Cut and set aside.
2. Thread needle and tie a knot to secure it in place.
3. Grain (smooth) side up, push needle through first hole, down to second and up the third hole. Leave extra thread in the back (rough) side. Pull each stitch tight.
4. Continue to stitch in this manner. When you reach the last hole, turn and stitch back to starting point, filling in alternate stitches.
5. Tie ends of thread together and trim off excess.

NOTE: Do all tooling, coloring and finishing before assembly. This instruction is for single needle running stitch. Double needle saddle stitch can be used if desired.

ASSEMBLY INSTRUCTION

STEP1: Grain (smooth) side out, fold 1-1 in half, insert 2-1 in the middle and align the edges.

STEP2: Take 3-1 grain (smooth) side up, place in the center front of 1-1. Stitch together using running stitch (see stitching instruction).

STEP3: Insert case cover and complete.
